Software engineer

Fast learner's, responsible, with over 2 years of experience as a web developer. I'm a team player and focus on reaching results with a high quality of work.

Experience

Zipsale. Co. LTD (UK startup **Zipsale**)

May 2021 - current

Web Developer
- For this period our client base was increased from 500 to over 3000 users and every day they are making cross-listing more than 1500 items a day.
- Support, and improve integrations with marketplaces such as eBay, Etsy, Shopify, Depop, and Vinted
- Implement new features in the application by demand of the Product Manager.
- Communicate effectively with colleagues and Quality Assurance Department.
- Working alongside colleagues to improve our codebase to be more clear, efficient, and stable.
- Also, I use native Javascript to implement front-end features or fix existing ones.
- Also, the company rules include covering code by unit tests and marking annotation by types overall

Company stack:
- Python 3.9, 3.10
- Django 3.2
- DRF (REST API)
- PostgreSQL
- Javascript (ES7), HTML, CSS.
- Celery
- Pytest
- Gitlab CI/CD.

- Docker
- Kubernetes
- Strong typing
- FastAPI (microservice)

Freelance
April 2020 - May 2021

Web sites and Chatbots Developer
- I use python (Django, Flask) as a backend solution and bootstrap as a frontend.
- Create not complex websites as a full-stack developer. There were no complex websites but more than landing pages.
- Working with several developer groups to implement big tasks. Working with the Upwork platform.
- Also, implement telegram chatbots by customer specification.
- By myself made deploy to servers.
- Increase English level for communications with English speakers customers.

Technology that I used:
- Python 3.6 ~ 3.8
- Django 3.0
- Flask, Jinja.
- PostgreSQL,
- Docker (Docker compose)

Self-education (only education)
November 2018 - mid of 2020

Web back-end developer
- Started to learn Jave but after 3 months switched to Python and Javascript
- Studying with mentors. They make a plan of education and tasks for the period. After finish, they did the code review.
- Several courses on Udemy and Coursera (SQL, Django ORM, HTML, CSS)
- Increased English level for reading technical documentation and understanding courses without a dictionary.
